New Business

3 requests for funds from the following groups.

1. Brent Crich asked for funds to purchase a computer to run the program we bought earlier as the school had no funds to purchase this at this time. The district has put in \$1000 towards this purchase. This was time sensitive as the competitions for the robotics club are coming up quickly. We approved the amount of \$750 for this computer.
2. Steve Halfnights/Allard Ludwig asked for funds to purchase a subwoofer as the school has been renting this piece of equipment several times a year when they needed them and it would be more cost effective to own one in the long run. We approved the amount of \$750 for this purchase.
3. Anelma Brown has requested funds to install a water bottle refill station. She has received a grant of \$700 towards one but the cost is \$1200. We approved the amount of \$500 toward this purchase. The district will install it.
